ELGHALI AI - RESULTS ANALYSIS

Wolverhampton - 16 February 2026

Total Races	7
Correct Winners	0 (0%)
NAP in Top 3	1 (Alondra - 2nd)

RACE BY RACE COMPARISON

Race	Time	Winner (Draw)	Odds	Model Pick	Result
1	17:00	Cressida Wildes (2)	15/2	Alondra	☐ WRONG
2	17:30	Faster Bee (9)	16/1	Bad Habits	☐ WRONG
3	18:00	Arishka's Dream (5)	5/2	Lovethiswayagain	☐ WRONG
4	18:30	Silky Wilkie (7)	9/2	Dandy Khan	☐ WRONG
5	19:00	Beauzon (-)	n/s	Papa Cocktail	☐ WRONG
6	19:30	Samra Star (4)	9/1	Diamond River	☐ WRONG
7	20:00	Little Miss India (4)	9/2	Solanna	☐ WRONG

KEY FINDINGS & LESSONS LEARNED

1. No Strong Draw Bias on This Day
Winning draws were distributed across all positions (2, 4, 5, 7, 9). The model's assumption of strong low-draw advantage in sprints was NOT validated.

2. Favorites Failed Completely
No favorite won any race today. Alondra (13/8) finished 2nd. This suggests value in opposing short-priced favorites at Wolverhampton.

3. High Odds Winners
- Faster Bee won at 16/1 from draw 9 (highest draw in race)
- Samra Star won at 9/1
- Cressida Wildes won at 15/2

4. NAP Performance
Alondra (NAP of the Day) finished 2nd, beaten only ¾ length. A placed finish for the NAP represents a reasonable outcome.

RECOMMENDED MODEL ADJUSTMENTS

1. Reduce Draw Bias Weight
Current: +3 for draws 1-4 in sprints
Proposed: +1 for draws 1-4, neutral for draws 5-7, +0.5 for draws 8+

2. Add "Value Horse" Factor
Horses priced 8/1 or higher should receive additional consideration, especially if they have:
- Previous all-weather form
- Trainer/jockey in form

3. Add "Oppose Favorite" Alert
When favorite is shorter than 2/1, flag for potential lay consideration.

4. Track-Specific Form
Give extra weight to horses with winning form at Wolverhampton specifically.
